AUTOCAL 1200

The CALsys Autocal 1200 is an automatic temperature calibration system for the Thermocouple and RTDs. The system consists of Temperature bath and PC software, which together contribute to the whole cycle of auto calibration process. The system accept 4 channels, 4 Thermocouples or 4 RTDs.

The connection for these channels through special type of locking connectors. The channel configuration can be done with LCD display via touch screen keypad. The thermocouple microvolt & RTD ohm reading for each channel is monitored with CJC compensation.

Letter of Appreciation

Subject: Letter of Appreciation for support received from M/s Tempsens Instruments India Pvt Ltd.

We wish to put on record the excellent performance by Mr. Aziz Faiyaz, Mr. Darshik Dave & Mr. Kamal Narayan in UltraTech Cement – Baga Cement Works, Baga, Himachal Pradesh.

They all demonstrated their skills, knowledge and presence, following UltraTech Cement's safety standards and practices, for attending the issues related to Kiln CCTV Camera, Clinker DPC Pyrometer and Kiln Inlet Pyrometer and for closing the same.

We wish to highlight here that activities were carried out in a manner such that there was no production interruption and jobs were carried out very smoothly.

M/s. UTCL Baga, appreciates M/s. Tempsens Instruments India Pvt. Ltd. team member's seamless effort and the superior jobs done.

M/s. UTCL Baga once again congratulate all of them for their sincere effort to fix the technical issues and resolve the persistent issues in professional manner.
